## Caring for your Products

### CARE INSTRUCTIONS

The life of your branding depends on the color as well as environmental factors such as traffic, pollution, sun, wind and rain.

- When setting up your branding, always make sure there is a sufficient amount of unobstructed space on all sides. Walls, trees, poles and other objects may damage your banners, especially where wind or other elements could play a factor.
- Always remember to properly ballast your products using tie down points and ropes (when supplied with products) or ballasts such as sandbags for items with hidden pockets.
- To increase the life-span of your branding, take it down at night and/or in winds in excess of 25mph.
- Remember, the sun fades everything. Whenever possible, set up products in shaded areas, away from direct sunlight.
- We recommend cleaning them once a month for any products which are used daily.
- To prevent mold/mildew, always make sure your products are completely dry before packing and storing.

### WASH INSTRUCTIONS

Clean with warm, soapy water (30°C/86°F) or machine wash using the gentle cycle.

Do not bleach

Steam Iron only

Do not tumble dry

Do not dry clean

Dry thoroughly before packing away

## FABRIC KEY

STANDARD FABRIC FOR EACH PRODUCT  
CAN BE SUBSTITUTED WITH ANOTHER  
AT THE CUSTOMER'S REQUEST.

Custom Inflatables

## CUSTOM INFLATABLES

The only limit is your imagination. ExpandaBrand is constantly coming up with NEW and innovative ideas. Our latest brainchild is our line of uniquely-shaped custom inflatables, which includes the Inflatable Soccer Shootout/Goal - perfect for school/sporting events and promotions, as well as the Inflatable Column, which includes a rotating base and internal lighting system - ideal for indoor events and exhibitions.

Like all of our ExpandaBrand products, our line of custom inflatables are also printed using our advanced print technology and top quality inks, which means brilliant colors and photographic-quality images. Not only can you re-skin your inflatable for quick, easy branding updates, but our colorfast fabric is UV-treated, fire-retardant, water-resistant and washable.

## CUSTOM BANNERS

You name it. We make it. All of our custom banners are available in your choice of quality polyester fabrics and can be finished with optional rods, eyelets and ropes. Whether you need a 3' banner or a 300' banner, we have a solution.

ExpandaBrand offers a wide array of fabrics to choose from for indoor and outdoor applications. Our Hanging Banners are produced using quality polyester that we loom in-house. Hanging Banners can be finished with pole pockets, grommets, Velcro, etc. We even offer fittings for retail/POS use for quick and easy updates to your in-store messaging.
